SEO & Analytics: Technical SEO, Google Analytics 4 (GA4), Google Tag Manager (GTM)

E-commerce: WooCommerce, Shopify, Payment Gateway Integration, CRM Integration

Tools & Platforms: Git/GitHub, Cloudflare CDN, Agile Development Workflows, Security Monitoring & Maintenance

PROFESSIONAL EXPERIENCE

Senior WordPress Developer (Remote)

GAOTek Inc. (GAO Group) — New York, USAMay 2025 – Present

- Manage WordPress infrastructure across **10+ corporate domains**, including GAORFID and GAOTek, ensuring consistent uptime, security, and performance.
- Reduced **Largest Contentful Paint (LCP)** by **~30%** by re-architecting caching strategy, optimizing assets, and integrating CDN delivery, directly improving Core Web Vitals scores.
- Implemented **GA4 and Google Tag Manager (GTM)** tracking alongside CRM integrations to support marketing analytics and lead-generation workflows.
- Maintain platform stability and search visibility through ongoing **technical SEO improvements, security monitoring, plugin/core updates, and automated backup management.**

WordPress & Shopify Developer (Freelance — Global Clients)

Upwork, Fiverr, Direct ContractsMay 2022 – Present

- Delivered **60+ production websites** across eCommerce, SaaS, and corporate sectors for international clients.
- Built custom WooCommerce functionality and Shopify Liquid sections that improved user experience and product conversion rates.
- Achieved **90+ Google PageSpeed scores** on multiple projects through advanced front-end and server-side performance optimization.
- Integrated payment gateways, CRM systems, analytics platforms, and marketing tools to support client business operations.

WordPress Developer

Orbiski — Germany (Remote)Jul 2021 – Apr 2022

- Converted Figma and PSD designs into fully responsive WordPress themes using modern CSS and JavaScript practices.
- Customized WooCommerce product pages and checkout flows to improve on-site conversion rates.

WordPress Developer Intern

Bitbysoft — Finland (Remote)Feb 2021 – Apr 2021

- Assisted with theme customization and front-end performance optimization within Agile development workflows.
- Used Git version control to support collaborative development and deployment processes.

PORTFOLIO PROJECTS

rasar.co, amusetechsolutions.com

Designed and developed custom WordPress websites for global clients, focusing on responsive design, clean UX, and Core Web Vitals performance optimization.
